EVAPCO ON THE GO!

New "Vane Style" Adapters on STL *Model Evaporators*

In March of 2011, EVAPCO introduced redesigned Long Throw Adapters for the STMC Model Evaporators. Now, these high performance adapters are available in 36", 42" and 48" fan diameters for the STL Models!!!

- Up to 50% longer air throw when compared to the current cylindrical design
- Aluminum contruction as standard
- Optional Stainless Steel construction available
- Factory mounted - reduces freight and contractor site labor cost
- Improves access for coil cleaning and inspection
- Available in evapSelect today!

The availability of these vane style adapters allows you to select the right STL Model for the application without having to increase air volume, horsepower and dollars!!

Maximize Your Competitive Advantage!!!
