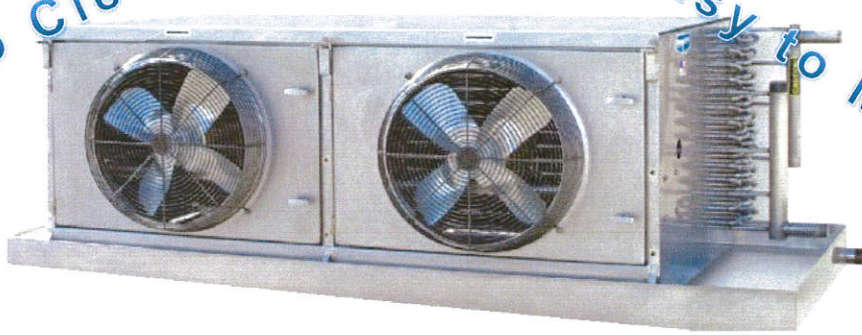
EVAPCO ON THE GO!

Ultra~STMC is *Ultra*~Clean

Cleaning and sanitizing ceiling-hung evaporators is crucial for food processing plants. However, this can be a difficult task to accomplish. Conventional evaporators pose a unique challenge to cleaning personnel due to the design of key components, assembly methods used, and the limited access to the coil, inside the cabinet, and the drain pan. In addition, their physical location above process equipment and work areas make effective cleaning and sanitizing equally challenging.

EVAPCO has the solution… introducing the ***Ultra~STMC Series*** – Ultra Hygienic Ceiling Hung Evaporators. The Ultra Hygienic design is now available for **SSTMC** and **SLTMC** model evaporators.

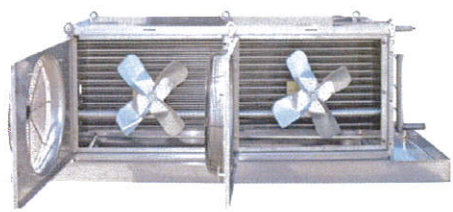
Easy to Clean!



Easy to Maintain!

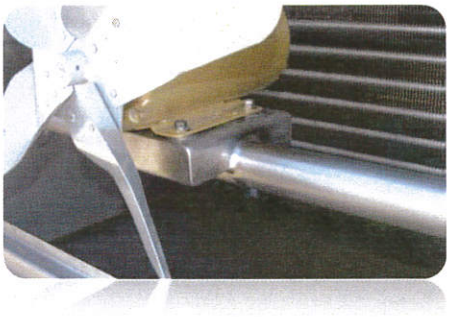
The ***Ultra~STMC Series*** offers new, innovative **hygienic** features which improve the effectiveness of cleaning and sanitizing.

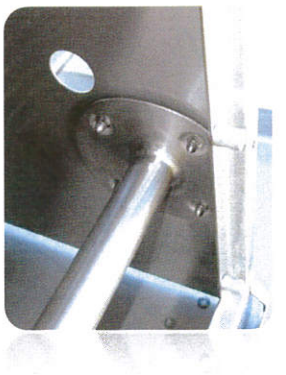
- Fully welded stainless steel drain pan with rounded corners and recessed drain connection for **100% drainage.**
- Full width, fully welded hinged fan panels with stainless steel hinges and latches for each fan section.
- Fan panels are removable for cleaning.



Mike Hawkins
MidAtlantic Refrigeration
Sub Office

- Fully welded unit and pan hanger brackets.
- Sloped top panel with "sanitary" spacer eliminates metal-to-metal contact for thorough cleaning.
- Fully welded pipe motor base with "sanitary" spacers for thorough cleaning.





- Stainless steel pipe motor support with "sanitary" space mounting.
- One piece stainless steel tube sheet eliminates overlapping panels and reduces the number of fasteners.
- Optional EVAPCO Sanitary System (ESS) featuring UVC Energy Technology available on all models.
- As well as many other innovative features!

Pricing for the ***Ultra*~STMC** evaporators will be provided by the Sales Team in Medford, MN until this option is available in the evapSelect program. Copies of the enclosed ***Ultra*~STMC** Series Industrial Evaporators Bulletin 415 are available for immediate shipment to your office.

Order copies today and spread the word to your Customers and End-users about the new innovative product line that encompasses the most hygienic ceiling-hung evaporators in the industry!

Good Selling!
